16ft 60hp Superior In-Shore Boat & Trailer

Design & Performance | 16ft Superior In-Shore Pontoon Boats

Our 16ft Superior In-Shore Pontoon Boats have been designed to be aesthetically pleasing, comfortable and very smooth on the water. Check out our Youtube channel for the product video to see how they handle.

For strength and durability, we build this as a dual hull from 5052 Marine Grade Aluminium which has very high corrosion resistance.

There is also a fully retractable Bimini overhead so that the centre portion of the boat can be shaded but not become an obstruction whilst fishing from either the front or rear. We offer an array of exterior colour choices so even the most discerning customer will be satisfied. In fact, we can manufacture to any colour on the RAL colour chart as a custom order.

Colour Options

PPB White

PPB Platinum

PPB Sky Blue

PPB Deep Blue

PPB Black

Internals

Our 16ft Superior In-Shore Pontoon Boats have room for up to 6 passengers with 2 forward & 2 rear seats, cup & rod holders throughout the boat, forward bait storage, rear sink with retractable shower head tap and 50ltr water tank & pump head, in-built MP3 player with Bluetooth & marine speakers. For the skipper, we include a sports drive chair and console either centre or side configurations.

Options & Upgrades

We offer motor upgrades from 60hp to 75hp for the 16ft Superior In-Shore Pontoon Boat. Also at the time of order, you can add Hull Antifouling (Paint Protection) as an upgrade rather than the standard aluminium finish. Additionally, the boat can be supplied with a Marine Grade Stainless Steel BBQ, a tether kit with anchor, deck lines, fenders and an in-shore safety kit for 6 passengers which includes flares, jackets, paddles and a fire extinguisher.

Motor

We use Mercury motors exclusively on our boats. This motor, even in the 60hp and 75hp deliver great performance on our boats. Watch these Motor Videos on our Youtube channel.

Trailer

The trailer is specifically designed for the 16ft Superior In-Shore Pontoon Boats and meets Australian Standards. It is Hot Dip Galvanised, takes up to 1100kg plus includes a winch, coupler, safety chain and LED lighting.
